

## MESSAGE

This year the Vigilance Awareness Week is being observed from 27<sup>th</sup> Oct. 2014 to 1<sup>st</sup> November 2014.

The theme for this year's Awareness Week is "**Combating Corruption - Technology as an enabler**". Corruption adversely affects the country's economic development and achievement of development goals. The efficiency and objectivity in governance in every Organization holds the key for eradication of corruption from public life. The support and active participation of all stakeholders is required in fighting the menace of corruption. Increased awareness, leveraging of technology, transparency, foolproof systems & procedures and accountability at every level of hierarchy in public administration is indeed the most effective tool in the fight against corruption.

Positive contributions by the Vigilance in ensuring leveraging of technology such as e-payment, e-procurement, e-tendering, linking of all weighbridges, areas/units and regional stores of all areas through WAN, setting up of integrated systems consisting of CCTV, RFID/GPS based weighing control and vehicle control system in all areas of CCL etc. in the Company are efforts in this direction for reducing corruption and enhancing transparency in the organization.

Let us all pledge to build within ourselves a sense of strong internal integrity and work without "fear and favor" to curb the evil of corruption.

I wish each one of you, the very best in life.

  
(Arbind Prasad, ITS)

CHIEF VIGILANCE OFFICER  
Central Coalfields Limited  
DARBHANGA HOUSE, RANCHI
