

# User Manual for Vehicle Registration System

## Introduction:

Contracts for Extraction and Transportation of Coal as well as Loading & Transportation of Coal involve deployment of tippers/dumpers by contractors for execution of work as per terms & conditions of the contract, details of tippers to be deployed is submitted to project officer. After verification the vehicle are allowed in respect of a particular contract.

When the contract is over/suspended/runs below target, vehicles enrolled under particular contract are to be released & used for other contract. Vehicle registered/enrolled under a contract should not ply in other route/contract without prior administrative consent of Project Officer/General Manager.

In order to facilitate the system already in place, an application on Vehicle Registration System has been developed by CMC in association with system deptt.

The application will be available in CCL website.

The app was discussed with area authorities as well as the contractors. The input given by them have been incorporated in the app to make it more user friendly.

The key features, steps in operation, responsibility are as follows:

## Key Features:-

### 1. Login:

Go to the Link

<http://www.centralcoalfields.in/truckMonitoring/>

**Central Coalfields Limited**

A Government of India Undertaking  
A Miniratna Company

## Vehicle Registration System

Submit

After Registering All contract under an Area, Nodal Officers are required to register all vehicles against assigned contract. Vehicle Registration System will not allow multiple registration of a vehicle under different contract. One vehicle is restricted to be registered under one contract at a time throughout CCL. Vehicle registration process requires following information:

- Area Name
- Unit Name
- Contractor Name
- Contract Name
- Vehicle Registration Number

#### 4. Transfer Out:-

Vehicle Registration System has the provision of mutual transfer of vehicle among different contracts if required. There are two ways of transferring out a vehicle from current contract:

### a. Termination of Contract.

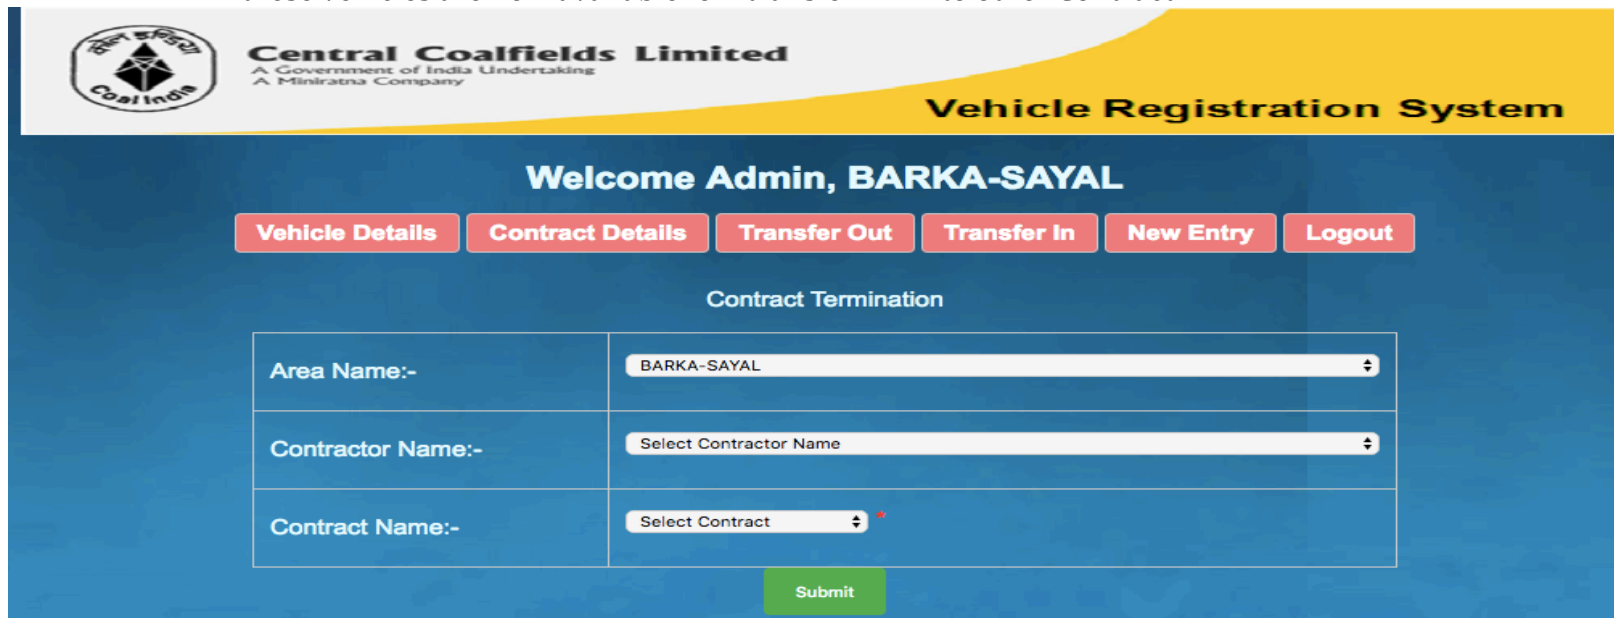

In case of the completion of a contract all the vehicles registered under a contract can be transferred out in bulk by terminating a contract.

Termination of a contract require:

- Area Name
- Contractor Name
- Contract Name

On submission, the contract gets terminated and all the vehicles registered under this contract get transferred out automatically.

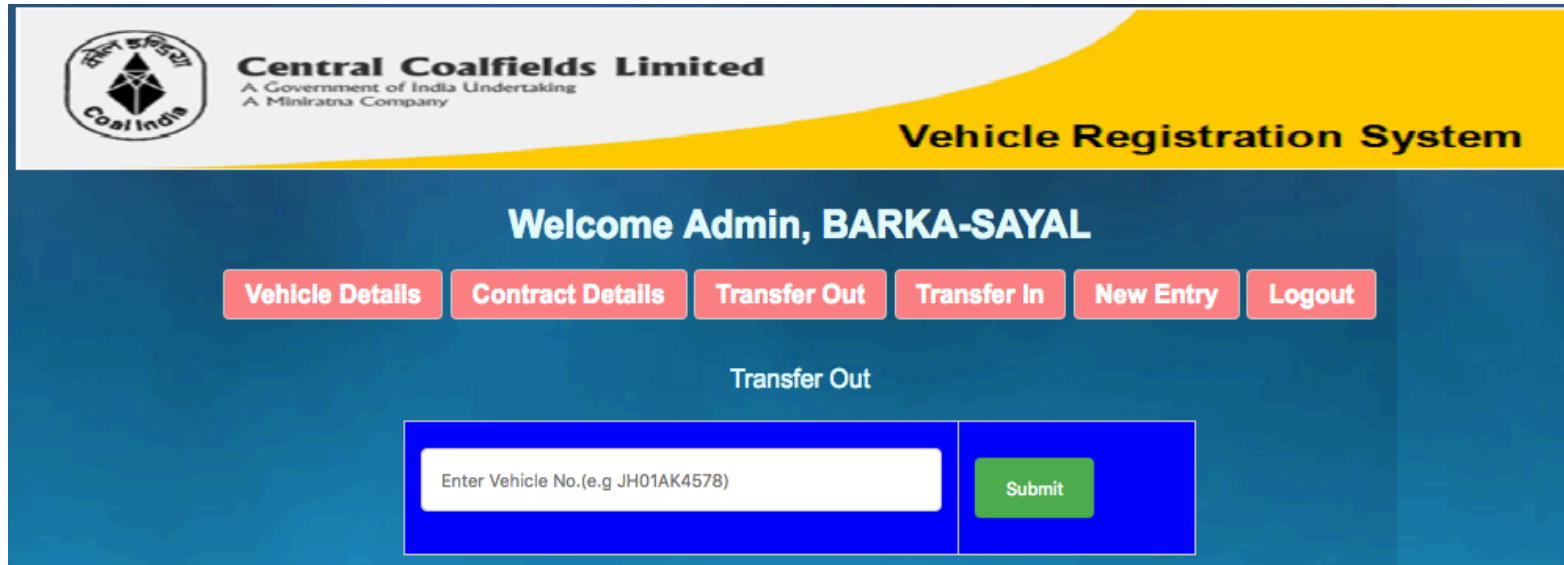

All these vehicles are now available for “transfer IN” into other Contract

The screenshot displays the 'Vehicle Registration System' interface for Central Coalfields Limited. The header includes the company logo and name. The main navigation bar contains buttons for 'Vehicle Details', 'Contract Details', 'Transfer Out', 'Transfer In', 'New Entry', and 'Logout'. The 'Contract Termination' section is active, showing a form with three dropdown menus: 'Area Name:-' (selected: BARKA-SAYAL), 'Contractor Name:-' (selected: Select Contractor Name), and 'Contract Name:-' (selected: Select Contract). A red asterisk is visible next to the 'Contract Name' dropdown. A green 'Submit' button is located at the bottom of the form.

#### **a. Vehicle Transfer In**

After transfer out of a vehicle from a contract of any area, Nodal Officers from any area can re-register that vehicle under any running contract. Registration System will not allow registration of a vehicle under more than one contract at any time. If Nodal officer tries to register a vehicle into some contract which is already registered under a contract in any area, the system will display the details about its current status and will not allow to register.

Vehicle transfer IN process requires following information:

- Area Name
- Unit Name
- Contractor's Name
- Contract Name
- Vehicle Registration Number
