11. **SUBMISSION OF BID:**

a) In order to submit the Bid, the bidders have to get themselves registered online on the e-Procurement portal (https://coalindiatenders.nic.in) with valid Digital Signature Certificate (DSC) issued from any agency authorized by Controller of Certifying Authority (CCA), Govt. of India and which can be traced up to the chain of trust to the Root Certificate of CCA. The online Registration of the Bidders on the portal will be free of cost and one time activity only. The registration should be in the name of bidder, whereas DSC holder may be either bidder himself or his duly authorized person.

b) The bidders have to accept unconditionally the online user portal agreement which contains the acceptance of all the Terms and Conditions of NIT including General and Special Terms & Conditions and other conditions, if any, along with on-line undertaking in support of the authenticity of the declarations regarding the facts, figures, information and documents furnished by the Bidder on-line in order to become an eligible bidder. No conditional bid shall be accepted. This User Portal Agreement will be a part of the NIT/ Contract Agreement.
c) EMD shall be submitted online/offline (in case of BG only) as prescribed earlier. However, in case of tenders having provision for exemption of EMD, the bidder claiming for exemption will have to upload the requisite document as specified in NIT in support of their claim for exemption of EMD.

d) Bidder(s) will have to provide relevant data by filling the prescribed format in an objective and structured manner. The software will use the information provided by the bidders to evaluate the technical bid automatically.

e) The qualification in the bid will be subject to the receipt and acceptance of the EMD within schedule date and time as mentioned in the NIT.

f) For online submission of tender the bidders will have to upload “Letter of Bid”, all the confirmatory documents as prescribed in the NIT and Technical Parameter Sheet (TPS) (if applicable) in Cover-I and only “Price-bid” in Cover-II.

i). Letter of Bid: The format of Letter of Bid (as given in the NIT) will be downloaded by the bidder and will be printed on Bidder’s letter head and the scanned copy of the same will be uploaded during bid submission in cover-I. This will be the covering letter of the bidder for his submitted bid. The content of the “Letter of Bid” uploaded by the bidder must be the same as per the format downloaded from website and it should not contain any other information.

The Letter of bid will be digitally signed by DSC holder submitting bid online and it does not require any physical signature. However, if the Letter of Bid (LoB) bears the physical signature in addition to the digital signature of DSC holder, it will be accepted without questioning the identity of person signing the Letter of Bid.

If there is any change in the contents of Letter of Bid uploaded by bidder as compared to the format of Letter of Bid uploaded by the department with NIT document, then the bid will be rejected. However inclusion of any additional redundant information by the Bidder in the submitted Letter of Bid(LOB), which does not contradict the content and spirit of original format of LOB uploaded by department will not be a cause of rejection of his/her bid.

ii). Technical Parameter Sheet(TPS) (If applicable as per standard NIT): The Technical Parameter Sheet containing the technical specification parameters for the tendered work/service will be in Excel format (password protected) and will be uploaded during tender creation. This will be downloaded by the bidder and he will furnish all the required information on this Excel file. Thereafter, the bidder will upload the same Excel file during bid submission in General Technical Evaluation (GTE). The Technical Parameter Sheet which is incomplete and not submitted as per instruction given above will be rejected.

iii). Confirmatory Documents: All the Confirmatory documents as enlisted in the NIT (as detailed in clause no 16 below) in support of online information furnished by the bidders are to be uploaded in cover-I by all the bidders while submitting his/her/their bid.

iv). Price bid: The Price bid containing the Bill of Quantity will be in .xls format (password protected) and will be uploaded during tender creation. This will be downloaded by the bidder and he will quote the rates for all items on this Excel file. Thereafter, the bidder will upload the same Excel file during bid submission in Cover-II. The Price-bid will be in Item Rate BOQ format and the bidder will have to quote for all the tendered items and the L-1 will be decided on overall quoted value(i.e. Cost to company). The Price-bids of the tenderers will have no condition. The Price Bid which is incomplete and not submitted as per instruction given above will be rejected.

v). However, in case of tenders having provision for exemption of EMD, the bidder claiming for exemption will have to upload the requisite document as specified in NIT in support of their claim for exemption of EMD.

12. All bids are to be submitted on-line on the website https://coalindiatenders.nic.in. No bid shall be accepted offline.
13. It is the bidder’s responsibility to comply with the system requirement i.e. hardware, software and internet connectivity at bidder’s premises to access the e-tender portal. Under any circumstances CCL shall not be liable to the bidders for any direct/indirect loss or damages incurred by them arising out of incorrect use of the e-tender system or internet connectivity failures.

14. **AUTO EXTENSION OF DATES OF RECEIPT & OPENING:**

If number of bids received online is found to be less than three on end date of bid submission then the following critical dates of the Tender will be automatically extended initially for a period of **two days** ending at 17.00 hrs and if the number of bids still remains less than three, then for another **five days** ending at 17.00 hrs:

- Last date of submission of Bid
- Last date of receipt of EMD
- Date of opening of Tender.

If any of the above extended Dates falls on Sunday/Holiday i.e. a non-working day as defined in the e-Procurement Portal then the same is to be rescheduled to the next working day. This extension will be also applicable in case of receipt of zero bid.

15. On the scheduled date & time of bid opening, the bid will be decrypted and opened on-line, by the Bid Openers with their Digital Signature Certificate (DSC). The bidder can view bid opening remotely on their personalized dash board under “Bid Opening (Live)” link. Thereafter, the bid shall be evaluated by the system on-line based on the information furnished by bidders on-line in accordance with clause No.8 of NIT (Eligibility Criteria). This on-line evaluation will be validated by CCL.

The bidders will get the information regarding the status of their financial bid and ranking of bidders on website.

16. **e-PROCUREMENT PROCESS**

**(A) Process common to normal tenders (estimated cost <Rs. 1.0 crore) and Tender – cum - Reverse Auction (for estimated cost ≥ Rs.1.0 crore):**

i. The bidder shall upload their bids along with all the supporting documents in the e-procurement portal within the stipulated date of tender submission. EMDs are to be paid by the bidders in **online** mode. EMD exemption documents will be uploaded as provided in the system, to be verified along with bid documents.

ii. In case of number of bids received is/are less than three, tender submission date shall be extended - initially by **two days** and thereafter by **five days** automatically by the system.

iii. Bidders are required to upload their bid documents and **information** as specified in NIT /as per General Technical Evaluation (GTE), Technical Parameter Sheet (TPS) (if applicable).

iv. On scheduled date & time of tender opening and upon opening of the tender by the bid opening team, System will evaluate the Technical bids (cover-1) automatically on the basis of relevant data provided by bidder through a form contained in GTE, TPS and other Commercial Parameters combined in TPS (as applicable) in an objective and structured manner while submitting bid. If the parameter given by bidder in objective and structured manner does not confirm to required eligibility criteria as specified in the tender document then the bid will be automatically rejected by the system. The system will automatically upload the technical opening summary and technical evaluation summary.

v. Upon opening of the bids, GTE, TPS, BOQ and all other documents uploaded by the bidders get opened and comparative statement of prices is generated after **auto evaluation** by the system on the basis of information furnished online.

vi. Supportive documents of L-1 bidder only, shall be downloaded for evaluation by the TIA.

vii. After evaluation of the uploaded documents, **shortfall documents /clarifications**, if required, will be sought from the L-1 bidder. For this purpose, maximum two chances, first of 7x24 hours and second of 5x24 hours duration shall be given.
viii. If the techno-commercial acceptability of L-1 bidder is established upon verification of uploaded documents and short fall documents (if so required), the case shall be considered by the tender committee for further action. If the L-1 bidder happens to be defaulter upon verification, the documents of the next lowest bidder shall be downloaded for evaluation and short fall documents shall be obtained if required. This process continues sequentially till techno-commercially acceptable L-1 is established.

ix. The bidders defaulting on account of above shall be liable to pay the following penalties:

<table>

</tr>
</thead>
<tbody>
<tr>
<td>(i)</td>
<td>L-1 bidder is a defaulter*In reference to Cl. 15(A)(viii)].</td>
<td>Forfeiture of 100% of EMD.</td>
</tr>
</tbody>
</table>

Note: *The penal provisions shall be applicable in CCL.
**The penal provisions will be squarely applicable to all those firms whose documents are examined on account of treating them as L-1 successively.

(B) Process for Tenders –Cum-Reverse Auction (RA) (for estimated cost ≥Rs.1.0 crore):

- Tenders having value of Rs.1.00 Cr and above shall follow Reverse Auction process as under:
  - i. Reverse Auction will be initiated after opening of price bids, as detailed above in case of normal tenders.
  - ii. There will be no participation fees for e-Reverse auction.
  - iii. (a) Upon opening of the price bids, a reverse auction platform will be created, displaying only the L1 price received. No indication will be available in the portal to anybody regarding number of bids and names of the bidders.
    - (b) H1 bid will be eliminated during price bid opening, if more than three techno-commercially acceptable bids are available as per the evaluation done by system and such bidder will not be allowed to participate in reverse auction. If two or three bidders have quoted same H1 land cost (i.e. Cost to company), the bidder(s) who submitted /frozen the bid later, shall be rejected and will not be allowed to participate in reverse auction.
  - iv. System displays L1 cost to company price automatically in auction creation form and allows TIA to edit the value as 'start bid' price. For the time being L1 Price or [approved e-bid price (as above) + applicable GST (excluding GST)] will be the start bid price for tenders for works and services. The estimated price should be based on SOR (Schedule of Rates) and market analysed rates in case of items/services for which SOR is not available. If the L-1 price is higher than the Start Bid Price (as above) and the RAP is not triggered within the scheduled time, the cases will be retendered.
  - v. The L1 price / start bid price is cost to the company price on which the auction will be initiated. At the end of reverse auction, the L1 bidder has to submit break up of prices conforming to the lowest landed rate (cost to company) quoted by him in the reverse auction.
  - vi. At the end of the reverse auction, the bidders who have participated in the reverse auction have to upload the break-up of cost to company prices in the confirmatory documents, confirming the lowest landed rate (cost to company) quoted in reverse auction or a close lower value thereof.

The detailed Break-up of offered cost to company price, uploaded by the bidder(s) shall be considered and ordered, if placed, shall be with the same break-up of prices. The bidder(s) after reverse auction will be responsible to ensure that the cost to company rate as per the break-up of prices provided by him after the reverse auction and cost to company rate offered by him in the reverse auction is exactly same or a close lower value thereof. The bidder will not be allowed to increase the rate of any item while submitting the break up. While giving the break up, the bidder will have to consider same rate of taxes and duties as quoted while submitting the e-price bid. In case the bidder(s) fails to submit the break-up of cost to company price within stipulated period or the break up does not match with total offered price or a close lower value thereof, the company will be at liberty to place order by preparing the break-up of the offered composite cost to company price (or close lower value thereof) by proportionately reducing the item rates on the basis of the breakup of the e-price bid submitted by the bidder along with the initial offer and the same will be considered as bidder’s offer and binding on the bidder. In case of works and services tenders, the reverse auction will be conducted on the composite cost to company price.
vii. The **minimum allowable** decrement value will be 0.5% of the start bid price with minimum of Rs.1/-, as the system does not have a provision of taking amounts less than Rs.1/- as decrement value. The reduction shall have to be made as per decrement value or in multiple thereof.

The maximum seal percentage(maximum allowed decrement in one go) will be fixed as 2% of start bid price/last quoted price during reverse auction, whichever is lower plus 0.5% of start bid price.

In order to have ease of submission of reverse auction bid by the bidders, it is suggested that decrement value may be rounded off to nearest value as under:

(a) For decrement values up to Rs.10/-, rounding off may be made to nearest rupee.
(b) For decrement values from Rs.11/- to Rs.100/-, rounding off may be made to nearest 10.
(c) For decrement value from Rs.101/- to Rs.1,000/-, rounding off may be made to nearest 100.
(d) For decrement value from Rs.1,001/- to Rs.10,000/-, rounding off may be made to nearest 1000.
and so on ......

For cases where the unit rate is low and quantum of item is huge, if the decrement value in terms of 0.5% works out to be in paise and rounding off to nearest rupee, would be much higher than 0.5% of start bid value, the unit of measurement may be adjusted in such a way so that decrement value may remain in the range of 0.5% or Rs.1/- whichever is higher.

For example, Tender for any item, whose unit of measurement is in KG and having low unit rate may be invited in terms of 10 KG or 100 Kg, as may be considered appropriate, as unit of measurement.

viii. Initial period of reverse auction will be two hours. There will be auto extensions of time every time by ten minutes in case of any reduction recorded in the last ten minutes. The reverse auction will come to a close only when there is no further reduction recorded in the last ten minutes slot.

ix. System protects bid and bidder information till auction gets over and displays current L1 price to the bidder in auction hall.

x. System will provide bidder details along with bid documents at the end of reverse auction process.

xi. The log details of the entire reverse auction process will be generated by the system once the process of reverse auction is completed.

xii. If a bidder does not submit his bid in the Reverse Auction, the price quoted by him in the price bid shall be considered as the valid price of that bidder. The status of the bidder (L1, L2 etc) shall be evaluated considering either the bid price submitted in Reverse auction or the Price quoted in the price bid, whichever is lower.

xiii. Since, reverse auction is a sequel to e-tender, the process of finalizing the tender upon completion of reverse auction will be same as the tender process without reverse auction.

xiv. CCL will provide the calculation sheet (e.g.: EXCEL sheet) which will help to arrive at “Total Cost to CCL” by the vendor, like Taxes and duties, Insurance, GST etc, to enable them to fill-in the price and keep it ready for keying in during the Reverse auction.

xv. The bid history shall reflect only the landed price. The landed price shall also not be same for two bidders even if any bidder makes such an attempt.

xvi. Only the chronologically last bid submitted by the bidder till the end of the auction shall be considered as the valid price bid of that bidder. Any bid submitted earlier by the bidder prior to submission of his last bid will not be considered as the valid price bid.

xvii. Server time shall be the basis of Start time & Closing time for bidding and shall be binding for all. This would be visible to all concerned.

xviii. On expiry of the closing of the auction, the bid history showing all the last valid bids offered along with name of the bidders shall be published. All bidders shall have the facility to see and get a print of the same for their record.

xix. All electronic bids submitted during the reverse auction process shall be legally binding on the bidder. The chronologically last bid submitted by the bidder till the end of the auction will be considered as the valid price bid offered by that bidder and acceptance of the same by CCL will form a binding contract between CCL and the bidder for entering into a contract.
xx. Conditional discounts shall not be considered. If a bidder offers a discount unilaterally after submission of bid, the discount shall not be considered for evaluation of offers but shall be availed if order is placed on such tenderer.

xxi. If the lowest price received during reverse auction is unreasonable or it is unacceptable on ground of being too high or too low compared with estimated price put to tender, the management reserves right to seek justification of the price from lowest bidder. If the price is not considered reasonable, management may not accept such bid and go for another tender process.

xxii. In case of disruption of service at the service provider's end while the RAP is online, due to any technical snag or otherwise attributable to the system failure at the server end, the RAP process will start all over again. In such a situation, the last recorded lowest price of prematurely ended RAP, will be the 'Start Bid' price for the restarted RAP. The prices quoted in the prematurely ended RAP will be binding on all the bidders for consideration, if the restarted RAP does not trigger within the stipulated time. Disruption and restarting of RAP shall be intimated to all the bidders through system/SMS/e-mail through e procurement portal. All the time stipulations of normal RAP will be applicable to the restarted RAP.

17. Scanned copies of documents as per following table are to be uploaded by all bidders during submission of bid.

The following supportive documents of L-1 bidder only (either L-1 or subsequently declared L-1 pursuant to clause 17H), shall be downloaded for evaluation by the Tender Inviting Authority:

17. Tender/Tender cum auction evaluation:

a. After opening of Price-bid (in case of tender)/after finishing reverse auction (in case of tender cum auction), the documents submitted by L-1 bidder in cover I as enlisted in the NIT will be downloaded by the evaluator and shall be put up to the Tender Committee. The Tender Committee will examine the uploaded documents against information/declarations furnished by the L1 bidder online. If they conform to all of the information/declarations furnished by the bidder online and do not change the eligibility status of the bidder then the bidder will be considered eligible for award of Contract.

b. In case the Tender Committee finds that there is some deficiency in uploaded documents by L1 bidder then the same will be specified online by Evaluator clearly indicating the omissions/shortcomings in the uploaded documents and indicating start date and end date allowing 07 days (07 x 24 hours) time for online re-submission by L1 bidder. The L-1 bidder will get this information on their personalized dash board under “Upload confirmatory document” link. Additionally, information shall also be sent by system generated email and SMS, but it will be the bidder’s responsibility to check the updated status/information on their personalized dash board regularly after opening of bid. No separate communication will be required in this regard. Non-receipt of e-mail and SMS will not be accepted as a reason of non-submission of documents within prescribed time. The bidder will upload the scanned copy of all those specified documents in support of the information/declarations furnished by them online within the specified period of 07 days. If the L1 bidder fails to submit the specified document/s in 07(seven) days or any of the deficiency in submitted document still exist, 05 more days (05 x 24 hours) of time may be given by Evaluator clearly indicating the omissions/shortcomings in the uploaded documents and indicating start date and end date for submission of such document/s.

c. The tender will be evaluated on the basis of documents uploaded by L-1 bidder online. The L-1 bidder is not required to submit hard copy of any document through offline mode. Any document submitted offline will not be given any cognizance in the evaluation of tender.

d. In case the L-1 bidder submits requisite documents online and tender committee finds them in order as per NIT, then the bidder will be considered eligible for award of Contract.

e. In case the L-1 bidder fails to submit requisite documents online as per NIT or if any of the information/declaration furnished by L-1 bidder online is found to be wrong by Tender Committee during evaluation of scanned documents uploaded by bidder, which changes the eligibility status of the bidder, then his bid shall be rejected and EMD of L-1 bidder will be forfeited.

f. Deleted.

g. In case the L1 bidder is technically eligible but rejection is due to high rate quoted by him/her then the tender shall be cancelled and retendered. EMD submitted by L1 bidder shall be refunded.

h. In case the L1 bidder is rejected due to noncompliance of confirmatory documents(including non-submission of original BG) then the L-2 bidder will become L-1 bidder and confirmatory documents of this bidder shall be evaluated by TC and the process shall be followed as mentioned in clause no. a to f above.
i. The process as mentioned at Cl. h shall be repeated till the work is either awarded or all the eligible bidders are exhausted.

j. In case none of the bidder complies the technical requirement, then re-tender will be done (with the same or different quantity, as per the instant requirement).

k. Deleted.

l. It is responsibility of Bidders to upload legible/clearly readable scanned copy of all the required documents as mentioned above.

   * The zone of applicability of penal provisions shall be restricted to CCL.
   ** The penal provisions will be squarely applicable to all those firms whose documents are examined on account of treating them as L-1 successively.
   *** All Penal Provisions shall be approved by the CMD.

18. **One Bid per Bidder:** Each Bidder shall submit only one Bid, either individually, or as a partner in a partnership firm or a partner in a Joint Venture or a public limited firm. A Bidder who submits or participates in more than one Bid (other than as a sub-contractor or in cases of alternatives that have been permitted or requested) will cause all the proposals with the Bidder’s participation to be disqualified.

19. **REFUND OF EARNEST MONEY**

   If EMD is paid by the bidder in online mode (Direct Debit/NEFT/RTGS) then the EMD of rejected bidders will be refunded at any stage directly to the account from where it had been received (except the cases where EMD is to be forfeited).

   No claim from the bidders will be entertained for non-receipt of the refund in any account other than the one from where the money is received.

Formula for calculating Diesel price variation of different combination of lead slabs is as under:

\[ VF = DR / 7.64 \] (For a lead of 0-1 km)
\[ VF = DR / 11.24 \] (For a lead of 1-2 km)
\[ VF = DR / 14.38 \] (For a lead of 2-3 km)
\[ VF = DR / 17.06 \] (For a lead of 3-4 km)
\[ VF = DR / 19.28 \] (For a lead of 4-5 km)
\[ VF = DR / 21.04 \] (For a lead of 5-6 km)
\[ VF = DR / 22.34 \] (For a lead of 6-7 km)
\[ VF = DR / 23.18 \] (For a lead of 7-8 km)
\[ VF = DR / 23.56 \] (For a lead of more than 8 km)

Where

\[ VF = \text{Diesel price variation in Rs. per Te} \]
\[ D = \text{one way Lead in km,} \]
\[ R = \text{Variation in the price of Diesel from base price in Rs./litre,} \]

Note: 1-2 means 1 < lead < 2

The above formulae will be applicable for tippers of all capacity

(ii) Excavator (for loading of Coal)

Diesel price variation \[ VF = 0.113 \times R \]

where, \( R = \text{Variation in the price of Diesel from basic price in Rs./litre} \)

(iii) Pay Loader (for loading of coal)

Diesel price variation \( VF = 0.066 \times R \)

(iv) Price variation on diesel (wagon loading):

Diesel price variation \( VF = 0.066 \times R \)
(B) **FOR OB**

(i) **Tipper**

Formula for calculating Diesel price variation of different combination of lead slabs is as under:

- $VF=DR/6.80$ (For a lead of 0-1 km)
- $VF=DR/8.77$ (For a lead of 1-2 km)
- $VF=DR/10.18$ (For a lead of 2-3 km)
- $VF=DR/11.03$ (For a lead of 3-4 km)
- $VF=DR/11.32$ (For a lead of more than 4 km)

Where

- $VF =$ Diesel price variation in Rs. per CuM
- $D =$ one way Lead in km,
- $R =$ Variation in the price of Diesel from base price in Rs./litre,

Note: 1-2 means 1 < lead < 2

The above formulae will be applicable for tippers of all capacity.

(ii) **Excavator**

Diesel price variation $VF=0.200 \times R$

(iii) **Dozer**

Diesel price variation $VF=0.043 \times R$

---

(C) **FOR SAND**

(i) **Tipper**

Diesel price variation in Rs. Per Cum $VF= D \times R/9$

Where $D =$ One-way distance in kilometer

$R =$ Variation in the price of Diesel from base price in Rs./litre

(ii) **Loading of sand by Pay Loader**

Diesel price variation in Rs. Per Cum. $VF=0.116 \times R$

(iii) **Loading of sand by Excavator(backhoe)**

Diesel price variation in Rs. Per Cum $=0.25xR$

**Note:** Unit of Diesel price variation ($VF$) shall be Rs/Te for all formulae mentioned above under clause (A)-COAL and Rs/Cum for all formulae mentioned above under clause (B)-OB & (C) – SAND.
