NOTICE FOR NON POWER (RAIL MODE) CONSUMERS

It is seen that sometimes at the time of supply of E Auction (Rail Mode) Rakes, BID grade and size of coal is not available at siding due to up/downgradation of coal seams being worked upon from linked mines. This scenario is frequently observed at sidings having old arrears. Such consumers are requested to kindly note the following in given reference.

- A) Available Bid Grade/ Size is not acceptable to consumers: Consumers should give specific request for cancellation of indents and refund of coal value and EMD.
- B) Available Bid Grade/ Size is acceptable to consumers: Such consumers should give consent for accepting available grade and size AND should arrange for deposition of differential coal value (if applicable for higher grade.)
- C) In case BID Grade is not available at the time of supply and no response has been received from consumer: CCL shall not be able to load such rake and indents shall be forfeited as per extant Railway Rules. EMD shall be forfeited in such cases.

In view of above, all E Auction (Rail Mode) Consumers are requested to be in contact with loading points i.e. sidings regarding availability of grade and size of coal and to provide acceptance/ non acceptance accordingly in case of non availability of bid grade and size of coal.

M. Jhu 29/2/24,
General Manager (M&S)
CCL Ranchi

For Distribution:

- 1) CCL Website
- 2) All ASMs : With request to arrange notification for consumers regarding change of grade of coal at sidings.
