

MESSAGE

This year the Vigilance Awareness Week is being observed from 28th Oct. 2013 to 2nd November 2013.

The theme for this year's Awareness Week is "**Promoting Good Governance – Positive Contribution of Vigilance**". Vigilance is first and foremost an integral part of Management meant to ensure good governance. Every Organization should strive for maintaining its primary objective of profitability while at the same time ensuring efficiency, transparency and accountability. Improved governance in the form of eliminating corruption by increased transparency and accountability is absolutely essential. Increased awareness, leveraging of technology, transparency and competition is indeed the most effective tool in the fight against corruption. Positive contributions by the Vigilance in ensuring leveraging of technology (e-payment, e-procurement, e-tendering etc.) in the Company are efforts in this direction for reducing corruption and enhancing transparency.

Come, let us all work as a team to promote good governance, transparency and institutionalization of the best practices and sustained efforts to curb the evil of corruption.

I wish each one of you the very best in life.
