Subject- System improvement measures in tender

Sir,

CMD, CCL has endorsed and directed for implementation of the following system improvement suggestions recommended by CVO, CCL in the backdrop of BOO tenders for washeries.

1. Modification in Model Bid Documents can be done only after the approval of Competent Authority.
2. Any fact/issue related to probable hindrances in execution of the contract should be pre-disclosed in the NIT as far as possible.
3. An assessment of Construction cost and Operation & Maintenance cost in case of tenders on BOO concept shall be carried out by CMPDIL/expert agency before publication of tender, so that the workability of the project on bidder's quoted price can be assessed.
4. Any proposal related to a contract, wherein Land / Environment & Forest issues are there, should be vetted through respective Land & Revenue/ Environment & Forest departments so that obtaining necessary permissions may be taken up by them on priority basis.

You are requested to ensure implementation of above measures including incorporation of necessary clause(s) in the bid documents, as deemed appropriate with the approval of the Competent Authority.

The above measures should be enforced with immediate effect.

Yours faithfully,

(B. Sairam)

Director Technical (P&P)
